

Take a normally plastic sheet which is a little bit thicker than a normally Paper. You need a special Printing Press with which you print this plastic sheet just with the Headlines of a Daily Paper, after the Plastic Sheet is dry you hold it under a plastic record Press, which presses the Story as a record on this sheet. On this record are all this what you read regularly on a Page of a Newspaper. The Plastic Sheet will be exactly One foot long and four inches in width. The record press will not press a round record just like this:

Before Press record.
