

Sketch and Description of your Invention

ON LEFT HAND INSIDE PAGE: Draw directly on the page, if possible. If you need additional space, use separate sheets but have your witness sign and date each separate page. Use pencil or black ink for drawing. Number each part of your invention so that you can use the numbers on the next page in describing each part. Your drawing need not be "professional," but clear enough to understand.

ON RIGHT INSIDE PAGE: Write a description of your invention referring to each part by the number you placed on the part in your drawing. If you require additional pages, have your witnesses sign and date each page.

The more complete the information you give us, the more effectively we can work for you and the less chance there will be that we will lose valuable time querying you on points that can be answered here.

1. Explain the purposes of your invention in detail-what it is, what it does. (We must have this information.)
 It will be a spezial printed plastic sheet which is useable as a Daly-...
 Newspaper. And it will be a live.
